## How to Chat with your Colleagues

1. When you are entered into a Group Challenge, a chat will automatically be generated between you and the other participants once you have accepted the invite and the challenge has started. You can find this within the challenge by tapping the blue chat icon in the top right hand corner.
2. When you join a Masterclass, you are also entered into a chat with others who have enrolled. You can find this chat by tapping the blue chat icon in the top right hand corner of your screen and selecting the Masterclass tab.
